

Queen of the Derby Pub

Queen of the Derby Pub tells the story of Kathryn Smick's gutsy, charming, and amoral sister, Helen. Fifty years old when the story opens, Helen is voiceless from cancer of the larynx. Distraught and lonely, she finds solace in the camaraderie of the Derby Pub. There she is transformed into the "Queen" who has bedazzled and inspired the bar's patrons for more than a decade. She also finds strength in her revived relationship with Smick. The sisters pore over old photographs and reminisce in flashbacks to their early life in a patriarchal midwestern family, when Helen, always defiant and willful, was the only one who stood up to her father's fits of rage. Helen's colorful life, which included three failed marriages; two prison sentences; and a long-term affair with a married man, is recounted in detail, as the two sisters reflect upon their different approaches to living.
