Gort iceheart had been high druid of his land, aquitania, when he, hit by the curse of black magician huath evil eye, committed a terrible crime and went into hiding in the spanish mountains, until lugh of the long hand manipulated fate and sent him to armorica, where gort was saved by muin. Now united, they gather many allies, as their world is attacked by shadow monsters and other beings. The white magical world alliance though, led by gort's fosterfather taliesin thunderhand, is ready to strike back. muin's fosterbrother, ruis wild crow, is one of the leaders of the attackers, which causes muin great difficulties and becomes very dangerous to gort. In the middle of the raging war, pan, master of the otherworld, gives a special order to gort, and astonishing things start to happen.
