

Have you ever experienced the paranormal? Have you had the feeling of déjà vu or known something would take place before it actually did? Have you lived through a supernatural or spiritual event that you couldn't explain? After a few decades of experiencing phenomenal occurrences like these, author Gretchen Petty was confronted with a task by God: to write a book about her life on the road to salvation. *What on Earth! Spiritual Encounters that Made Me Believe* is the resulting tale of the mysterious occurrences she experienced and the unconventional spiritual path they took her on. Along the way she discovered just how real God is, learning that faith alone is more powerful than any form of magic, voodoo, illusion, or craft. Petty couldn't escape the countless oddities in her life, but after seeking out answers, she found out exactly what it took to make her believe.
