

PERPETUAL HAUNTINGS

The briefest synopsis of what the book is about is, essentially, cats, compromise, morals and ethics, perceptions, misperceptions, relationships with a splash of communication, and a lack of communication. Here is an extended version of what I'd like the reader to obtain upon completion. It's about doing the right thing—what's right for you. Life is full of compromises, especially when dealing with relationships. However, stay true and do not yield your beliefs and know when compromise is simply not an option. Do not jump to conclusions or judge someone based solely on their actions or inactions. Communication (two-way communication) is the key element in resolving all the above issues.
