

30 Days Streams of Consciousness: A Haunting (Volume 2)

Stream of consciousness refers to the practice of writing down ideas as they come into your head. The conventions of grammar and appropriateness of language is usually ignored when using this literary technique. For those of you who cringe at the misplaced metaphor, or the comma splice, or the occasionally correctly spelled wrong word so frequently seen in this day of spell-check reliability, dont worry there are a lot more things in here to worry about. Concern yourself with the things that go bump in the night. The unexplained. The unexplainable. A word of caution to the easily offended: some of the word choice used by the voices may not be acceptable in mixed company. When you deal with fears like these it is important to allow the voice freedom.
