

Whistlers Murder

Elizabeth Oliver has tagged along with her best friend Sally Matthews to Whistler where Sally is attending a science fiction/fantasy writing retreat. Elizabeth plans on spending the first week working on an article about Whistler for a travel magazine and then relaxing and enjoying being in the famous resort town for the second week. However, her well laid plan immediately begins to fall apart with the discovery of a body in a newly demolished house. Then she is again sidetracked when one of Sally's fellow students asks her to solve the mystery of her cousin's death and is then murdered herself. Another Travelling Detective Series mystery.
