

The Storm Chaser

Hurricane Katrina will be etched in our minds forever. Have you ever wondered what happened to the survivors and evacuees afterward . . . or what they went through to find a new sense of stability? Truth is, many have become far removed from the pain, despair and horror of that day. For evacuee Jayda Cabbell, it is a day and time in her life she will never forget. She offers readers a first-hand account of her emotional roller coaster through the Storms following the hurricane. After being knocked down and thrown off balance, Jayda Cabbell tackled the storms aftermath head-on with resilience. This is not another self-help book with a simple autobiographical twist. No, this book reads like an Oscar-nominated movie. Hurricane Katrina, jail, adultery and homelessness was no match to stop the favor and redemption on the authors life
